Store Pickup

FEATURES

- Online store pickup streamlines order fulfillment, eliminating shipping delays.
- Customers choose when and where to collect orders, saving on shipping costs.
- Shoppers can enjoy the physical store and access helpful staff.
- Businesses optimize stock levels efficiently based on online orders.
- Online store pickup enriches the shopping experience.
- Comprehensive store info and multiple pickup options enhance convenience.
- Businesses can suggest additional products during pickup.
- Boosts customer satisfaction and sales while reducing operational costs.

Ultimate Guide for Magento 2 Store Pickup

Introducing Magento 2 Store Pickup extension, here are key points highlighting the benefits and features of the store pickup feature:

- Store pickup allows customers to place online orders and collect them from a physical store, providing them with a convenient and flexible shopping experience.
- By offering store pickup, businesses can increase sales as it caters to the preferences of modern consumers who value efficiency and convenience in their shopping process.
- Utilizing store pickup helps reduce delivery expenses, which can be a significant operational cost for businesses engaged in e-commerce.
- This feature is a promotional tool for brick-and-mortar stores by driving foot traffic and fostering customer engagement in physical retail locations.
- Store pickup is a key component of the Buy-Online-Pick-up-in-Store (BOPIS) service, enriching the overall shopping experience for customers.
- Detailed information about physical store locations and the inclusion of multiple pickup options contribute to an enhanced shopping journey for customers.
- Store pickup reduces customers' overall purchase costs, making it an attractive option for those looking to save money on shipping fees.
- Store pickup aligns the interests of both businesses and customers, resulting in increased sales, decreased operational costs, and an overall improved shopping experience.

How to install the extension

1. Upload via ZIP/Archive

- Back up your store's database and web directory
 - Download the extension zip file and extract the zip file
 - Transfer the **app** folder into the **Magento2 root** directory on the server
 - Enable maintenance mode **php bin/magento maintenance:enable**
 - Run the command **php bin/magento module:enable MageINIC_Core MageINIC_StorePickup**
 - Run the command **php bin/magento setup:upgrade** to install the extension
 - Run the command **php bin/magento cache:clean** to clean the cache
 - Disable maintenance mode **php bin/magento maintenance:disable**
 - Check the store environment if everything is working properly. If, at any point, the store displays an error, check the Magento logger for more details.
-

Extension Usage

The screenshot shows the MageINIC dashboard. On the left sidebar, the 'Store Pickup' menu is highlighted. Red arrows point from the following labels to their respective items in the sidebar:

- Store Pickup Grid URI points to 'Store Pickup'.
- Store Holidays Grid URI points to 'Manage Store Pickup'.
- Store Configuration of Store Pickup URI points to 'Configuration'.

The main dashboard area displays a summary of business performance with metrics for Revenue (\$0.00), Tax (\$0.00), Shipping (\$0.00), and Quantity (0). Below this, there are tabs for 'Bestsellers', 'Most Viewed Products', 'New Customers', and 'Customers'. A table of products is shown with columns for Product, Price, and Quantity. The table lists items like 'Ur-Satellite UR-105 TA RGG', 'Jout Duffie Bag', 'Olivia 1/4 Zip Light Jacket-XS-Black', 'Push It Messenger Bag', and 'Breathe-Easy Tank-S-Purple'.

Manage Store Pickup

Please go to **MageINIC** → **Store Pickup** → **Manage Store Pickup**

The screenshot shows the 'Manage Store Pickup' page. The title 'Manage Store Pickup' is highlighted with a red box and labeled 'Title'. The page features a search bar, a 'Filters' button, and a table of store pickup records. The table has columns for ID, Image, Store name, E-mail, Store Contact No., Address, City, Post/Zip code, State/Province, Country, Latitude, Longitude, Position, Store View, Status, and Actions. The first record is for 'The Home Depot' with ID 1.

ID	Image	Store name	E-mail	Store Contact No.	Address	City	Post/Zip code	State/Province	Country	Latitude	Longitude	Position	Store View	Status	Actions
1		The Home Depot	test@homedepot.com	3235875520	3040 Stauson Ave, Huntington Park, United States	Los Angeles	CA 90255	California	United States	33.987880	-118.214770	1	All Store Views	ENABLED	Select

Store Schedule

The screenshot displays three configuration sections for a store:

- Store Schedule:** A table with columns for Enable, Days, Opening Hours, Opening Minutes, Start Break hour, Start Break Minutes, End Break hour, End Break Minutes, Closing Hours, Closing Minutes, and Actions. It lists settings for Monday through Sunday. Red arrows point to the 'Store Schedule' header and the 'Enable' column.
- Store Holidays:** A section with a 'Store Holidays' dropdown menu. A red arrow points to this dropdown.
- Search Engine Optimization (SEO):** A section with four input fields: URL Key (containing 'the-home-depot'), Meta Title, Meta Keywords, and Meta Description. Red arrows point to each field with labels: 'Set Meta Title' for Meta Title, 'Set Unique URL Key' for URL Key, 'Set Meta Keywords' for Meta Keywords, and 'Set Meta Description' for Meta Description.

Dynamic row Fields:

Enable - open the store for that particular day by yes or no options.

Days - Select a Week's name.

Opening Hours - Add an Opening Hours.

Opening Minutes - Add an Opening Minutes.

Start Break hour - Add a Start Break hour.

Start Break Minutes: Add Start Break Minutes.

End Break hour - Add an End Break hour.

End Break Minutes - Add an End Break Minutes.

Closing Hours - Add a Closing Hours.

Closing Minutes - Add a Closing Minutes.

Store Holidays

Store Holidays - Select multiple Holidays for this store pickup.

Search Engine Optimization(SEO)

URL Key - Set a unique Identifier for a particular store pickup or it will autogenerate on save.

Meta Title - Set a Meta Title.

Meta Keywords - Add a Meta Keywords.

Opening Minutes - Add an Opening Minutes.
